### Microelements, 1 oz

<b>SUNSHINE-Micro</b>	Get foliar spray for fixing micro-element deficiency symptoms like Chlorosis (yellowing leaves). Contains both EDTA + DTPA chelated iron. Applying DTPA chelated Iron overcomes the mix instability in hard water and is more effective for chlorosis. See instructions page for Guaranteed Analysis.	\$4.95
<b>SUNSHINE-Super-Iron</b>	For tough cases of Chlorosis, with this mix with extra Iron: ultra-potent, highly absorbable, contains both EDTA + DTPA chelated iron in higher concentration than regular micro-element mix. See instructions page for Guaranteed Analysis.	\$6.95
